Thursday, April 5th

7:00 pm

243 Broadway
Cambridge, MA (corner of Broadway & Windsor, entrance on Windsor)

Dead in the Water

(69 min)

During the Six-Day War, Israel attacked and nearly sank the USS Liberty belonging to its closest ally, the USA. Thirty-four American servicemen were killed in the two-hour assault by Israeli warplanes and torpedo boats. Israel claimed that the whole affair had been a tragic accident based on mistaken identification of the ship. The American government accepted the explanation.

For more than 30 years many people have disbelieved the official explanation but have been unable to rebut it convincingly. Now, ***Dead in the Water*** uses startling new evidence to reveal the truth behind the seemingly inexplicable attack.

On June 8, 2005, the attorney for the USS Liberty Veterans Association filed a report with the Department of Defense detailing the war crimes the Israelis committed during their June 8, 1967 attack on the USS Liberty.

On April 20, 2006, after having received no substantive communication since the filing of the report, two retired US Navy Admirals wrote a detailed letter to the Secretary of the Army with copies to the Secretary of the Navy and to US Senator and former Secretary of the Navy John Warner. [See ussliberty.org]

"I can tell you for an absolute certainty (from intercepted communications) that the Israelis knew they were attacking an American ship." ~NSA Deputy Director Oliver Kirby
